TO-MORROW, LAST DAY. London and Liverpool Clothing Co., 86 and 88 BOWERY, COR. HESTER ST.

NO ROOM FOR ORDINARY CIVILIANS.

West Point cadets were in possession of the reception given last night at the residence of Mr. John R. Livermore, in Montclair, N. J., in honor of young R. Livermore Livermore, who is just home after his first two years at West Point. The exclusion of the local beaux from all participation in the affair was told in yesterday's World.

Sixty guests were present. Half of them were from West Point. The other half included the very finest and brightest of Montclair belles. The company was equipped with such tact that, contrary to the usual rules in Montclair parties, only natural flowers adorned the walls. It was significant that not a Montclair young man was present.

The majority of the cadets were members of the third or fourth class and were resplendent in their military uniforms. A smaller number, members of the first or graduating class, wore their brand new tuxedos and elegant civilian costumes of black broadcloth. An observable feature of this every way memorable company was the presence of several resident beauties, whose brothers or other natural escorts had not been invited. Among the ladies present were Miss Edith Campbell, Miss Florence Benedict, Miss Alice Bonden, Miss Blanche Cunningham, Miss Boyd, Miss Darlin, Miss Bessie Francis, Miss Lilian Fenn, Miss Junkin, Miss Kennedy, Miss Mitchell, Miss Rand, Miss Jennie Russell, Miss Wille and Miss Underhill.

The muster roll of the gallant guests included Lieut. Charles B. Haggard, of New York; Lieut. Daniel Webster, Lieut. William H. Hays, of Illinois, and Cadets Charles D. Hine, Virginia; H. H. Howard, Mississippi; W. J. Glasgow, Missouri; John J. Bradley, Illinois; John S. Sewell, Kentucky; T. N. Horn, New Jersey; Hamilton, Virginia; Spencer Conboy, at large; James F. Melrose, Maryland; E. D. Anderson, Tennessee; L. R. Lyons, Virginia; A. M. Davis, District of Columbia; J. T. Crabbe, Illinois; Andrew Hero, Louisiana; Leroy S. Upton, Michigan; Frank S. Armstrong, Indiana; W. H. Chapman, Wisconsin; Guy B. Smith, Maryland; J. O. Murphy, Ohio; H. N. Jordan, Connecticut; Jay A. Morrow, Pennsylvania; Albert B. Donworth, Maine; Elmer Lindsey, New York; Herbert O. Williams, Mississippi; R. J. Fleming, Michigan; L. A. Carter, South Carolina.

Sold His Dying Mother-in-Law's Bed. Mrs. Minnie Wetzfeld, of No. 30 East Rixtenth street, appeared in Supreme Court, Chambers, yesterday and told a pathetic story of ill-treatment by her husband, Solomon Wetzfeld. She asked for the custody of her two children, which was granted by Judge Andrews. In her petition she states that Wetzfeld, who is now under indictment for grand larceny, had failed to provide for her support and had treated her in a most outrageous manner. Night after night when in a beastly state of intoxication he beat her and the children unmercifully. He would turn to the children and cry out, "I wish you were in it, and I'll send you there." While Mrs. Wetzfeld's mother was at death's door, Wetzfeld held an auction of furniture and sold the old lady's bed, making her vacate it. She died shortly afterwards. Mrs. Wetzfeld is of excellent family and is well and favorably known in German circles.

AMERICAN ENGINEERS IN LONDON.

Entertained at a Banquet in the Guildhall. London, June 11.—The Right Hon. Arthur Wellesley Peel, Speaker of the House of Commons, welcomed the visiting American engineers at Leamington yesterday. In his address he said that the English people admired the great feats performed by American engineers. Any one travelling in America was bound to admire the enormous energy, power and force that dominated the powers of nature. The heart of England went forth to the Republic beyond the sea. The visitors would find a ready welcome everywhere.

London, June 13.—The Institute of Civil Engineers gave a reception to-day in honor of the visiting American engineers. President Goode warmly welcomed the guests and said that their influence had been one of the principal factors in raising the United States to the place of foremost nation of the earth.

A banquet was subsequently given at the Guildhall this evening in honor of the visiting engineers. The use of the hall was granted by the Lord Mayor in view of the international character of the assembly. President Goode, United States Minister Lincoln, the Dean of Westminster, Archbishop Farrar and a number of the most eminent engineers were present. President Goode, in proposing a toast to America, said that the Christianity of the Pilgrim Fathers was the foundation of American prosperity. Mr. Lincoln, in a felicitous reply, said he would refrain from referring to America because in the presence of so many American friends he would be compelled to tell the truth. (Laughter.) Engineering, he declared, surpassed diplomacy in cementing the unity of nations.

Messrs. Whittemore, Towne, Hunt and Thomson responded to a toast to American engineers' societies.

RELIEF FOR THE PANAMA CANAL.

Government Project Submitted to the French Chamber.

PARIS, June 13.—A few days ago the Cabinet discussed the difficulties of the Panama Canal Company. The liquidator of the Company read his report, and the result of his findings was that the Government determined to present a bill to the Chamber of Deputies dealing with the matter.

The bill was introduced in the Chamber of Deputies to-day. It empowers the liquidator of the Company to sell on the best terms possible and regardless of the legal limit as to price the 800,000 of the bonds which have not yet been subscribed for. It also authorizes a subscription of 34,000,000 francs to cover the expenses necessary for the maintenance of the works pending an inquiry into the question of the completion of the canal. The liquidator will not be obliged to issue the bonds but he can negotiate with financiers to place them. The bonds will remain as lottery bonds.

VULCAN ON NEPTUNE'S ELEMENT.

Launch of a Monster Torpedo-Depot Ship at Portsmouth.

London, June 13.—The steel torpedo-depot ship Vulcan was launched at Portsmouth to-day. She is the largest vessel the Government has ever built. It is intended that she shall accompany a fleet and carry a large equipment of torpedo boats. She will form a floating workshop. She will be supplied with hydraulic cranes, on which torpedo boats can be hoisted in and out of the water.

The Vulcan is of 6,620 tons burden and 12,000 horse-power.

REMARKABLE CASE.

For two years I had rheumatism so bad that it disabled me for work and I could not even get up for a whole year, during which time I could not even move my hands to my head, and for 6 months could not move myself in bed. I was reduced to a state of weakness and helplessness. I was treated by best physicians, but only to grow worse. Finally I took Swift's Specific, and soon began to improve. After a while I was at my work, and for the past five months have been as well as I ever was—all from the effect of Swift's Specific.

GEN. PARKE'S VETERAN GUESTS.

The Society of the Army of the Potomac Visits West Point.

The second day's programme of the twentieth annual reunion of the Society of the Army of the Potomac, which began in Orange, N. J., Wednesday, comprised a visit to the West Point Military Academy. The excursion was arranged by the citizens of the Oranges, and right royally did they entertain the veterans. The iron steamboat Sirins had been chartered, and a special train conveyed the army men and invited guests from Orange to the steamboat dock at Hoboken. Stops were made at pier 1 and Twenty-third street, and at each place numbers of ladies and gentlemen were taken aboard, so that by the time the boat started on its way to the academy there were nearly two thousand persons aboard.

At the annual election Wednesday Major Gen. John G. Parke, commandant at West Point, was elected president of the society. The liquidator of the Company read his report, and the result of his findings was that the Government determined to present a bill to the Chamber of Deputies dealing with the matter.

The bill was introduced in the Chamber of Deputies to-day.
